Subject: FW: April 12 Sat. SLI Network Outage Update
Importance: High

Please see the email from Dina below regarding taking down the servers at 5:00 PM on Friday and being down all weekend. Please let me know ASAP if this is a problem.
Thanks, Julie

Subject: RE: April 12 Sat. SLI Network Outage Update

Hi All,

Please let me know if this scheduled work interferes with any planned testing this weekend. In addition to the work being done on Saturday, my staff is would like to take down the SLIS applications as a precaution on Friday at 5:00 pm.

Let me know if it is okay to move ahead with this. Of course if there is an event or a sample, the servers will be made available.

Thanks...Dina

Subject: April 12 Sat. SLI Network Outage Update

To All SLI Users,

On Saturday April 12, 2008 beginning at 8AM, ITS will perform maintenance and re-organization of the Data Center at State Lab. All DPH servers locate at the 1st floor server room will be shut down accordingly for this service. Network services and Internet service will not be available while this maintenance is performed, this outage is scheduled to last until no later than 5PM on April 13th however it is expected that all systems and services will be available by 5PM on April 12th. Please do not schedule come to work on this weekend. We do not anticipate any major problem after the work completed. UMass's network should not be affected by this outage. However, If you have any job process during this maintenance window please re-scheduled another time.

Your cooperation is greatly appreciated

Genesis
